

MANAGE LARGE-SCALE BULK HANDLING PROJECTS

with control and efficiency unique to Flexicon

Project Managers Dedicated To Your Success

- The Lead Flexicon Project Manager supervising your system offers you a single point-of-contact through every phase of development, streamlining your communications
- Strict adherence to your unique standards, documentation requirements and timelines
- Commitment to the successful performance and cost effectiveness of your project by serving as your dedicated advocate

Engineering Teams Ensure Smooth Integration

- Engineering teams on four continents relieve your staff of overloading
- Over 25,000 bulk handling installations worldwide provide the breadth and depth of experience essential for seamless integration with your upstream and downstream processes
- Ability to work with the engineering firm managing your entire project, or directly with your team

Effectiveness Only a Major Manufacturer Can Provide

- As one of the world's largest manufacturers of bulk handling systems, Flexicon can provide the engineering, manufacturing, outsourcing, integration, programming and validation of your project—eliminating the risk of coordinating multiple suppliers
- Greater efficiency and control than available through diversified engineering firms, dedicated equipment makers or in-house engineering departments with limited time and/or bulk handling experience

Flexicon's Project Engineering Division can assume single-source responsibility for engineering, integrating, automating and supporting your large-scale bulk handling project—while backing all Flexicon components with a Lifetime Performance Guarantee
